

LIBRARY NEWS

Our Community is growing. Demands on the library are growing, particularly with programming. Cramahe Library has identified and prioritised certain needs for our main library branch, Colborne Library. For the library to function as efficiently and effectively as possible, within this growing community and to meet current and future needs appropriately, these priorities have been forwarded to Council with a request for permission to apply for a Trillium Grant.

Priorities for Colborne Library Moving Forward

- More Space
- Accessible Entrance
- Reading/Study Zone - quiet study and exam space
 - Larger Programming Space
 - More shelving space
 - Appropriate children's area

The good news is that our Cramahe Council has granted permission for us to apply for a Trillium Grant this October 2017.

Anyone interested in learning more can contact Cramahe Library CEO and come and view our *draft* architectural drawings.

If we have the good fortune to be approved by Trillium, then we would hope to move forward with this expansion project in 2018. A public tender process would be put in motion in March 2018 if we are successful.
